## GUIDE TO REPORTING YOUTH PROTECTION EVENTS/INCIDENTS IN SENTINEL

### INTRODUCTION

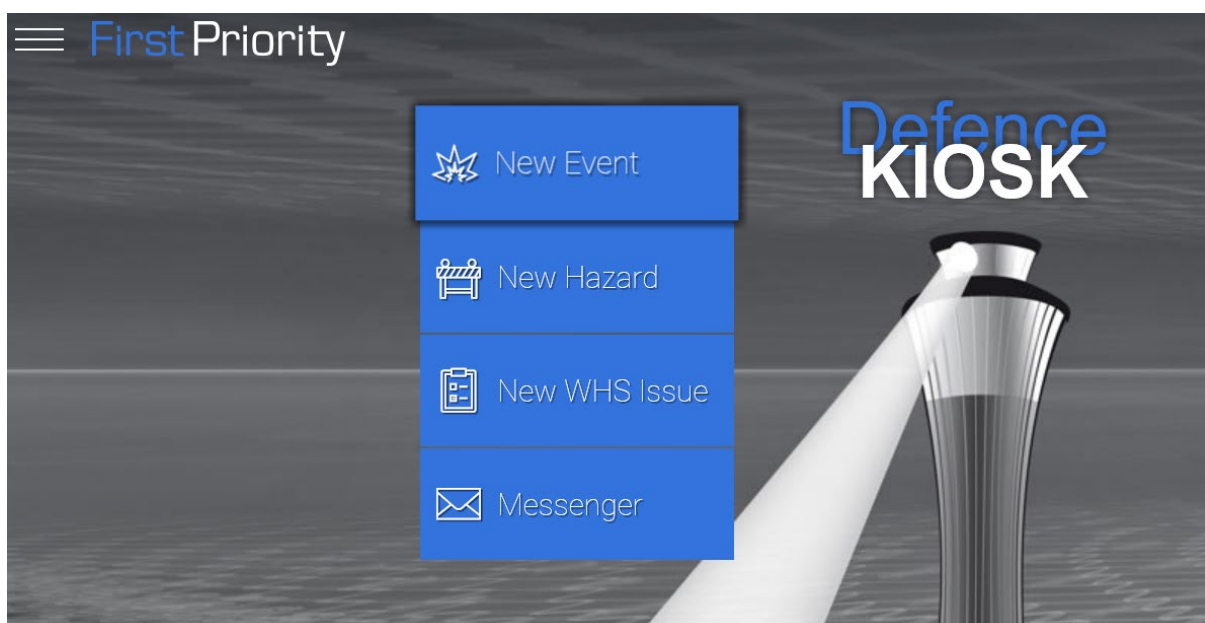

1.1 Workplace bullying and harassment is a Workplace Health and Safety (WHS) hazard and can be a notifiable incident to Comcare. Bullying and harassment events/incidents should be entered into Sentinel as a WHS event (refer to [WHS Hazards – Bullying and Harassment](#)). Sentinel and the Safety Trend Analysis Reporting Solution (STARS) tool are configured to protect the involved parties through restricted access to bullying and harassment event reports.

1.2 Defence requires a WHS event report to be entered in Sentinel for all youth protection events/incidents (Class A to Class D). This ensures effective reporting, investigation and closed-loop management of youth protection events/incidents, and supports analysis of youth protection event/incident data. Pending tailored enhancement of Sentinel, the functionality used to report bullying and harassment events/incidents in Sentinel is to be used for reporting youth protection events/incidents.

1.3 This guide provides instruction on how to report youth protection events/incidents in Sentinel and should be read in conjunction with [YOUTHPOLMAN Part 1 Section 3 Chapter 3 Youth Protection Complaint and Event/Incident Management](#).

### INITIAL REPORTING IN SENTINEL

1.4 **Step 1 –Create a New WHS Event:** From the Defence Kiosk within Sentinel, select “New Event” (Figure 1).

**Figure 1 – Select New Event**

1.5 **Step 2 – Select Event Type.** If you have Aviation Safety Reporting (ASR) access, you will see the screen in Figure 2. Select “No” for “Is this an Aviation Safety Report?” and “Yes” for “Is this a WHS Event?”. If you don’t have ASR access, go to Step 3.

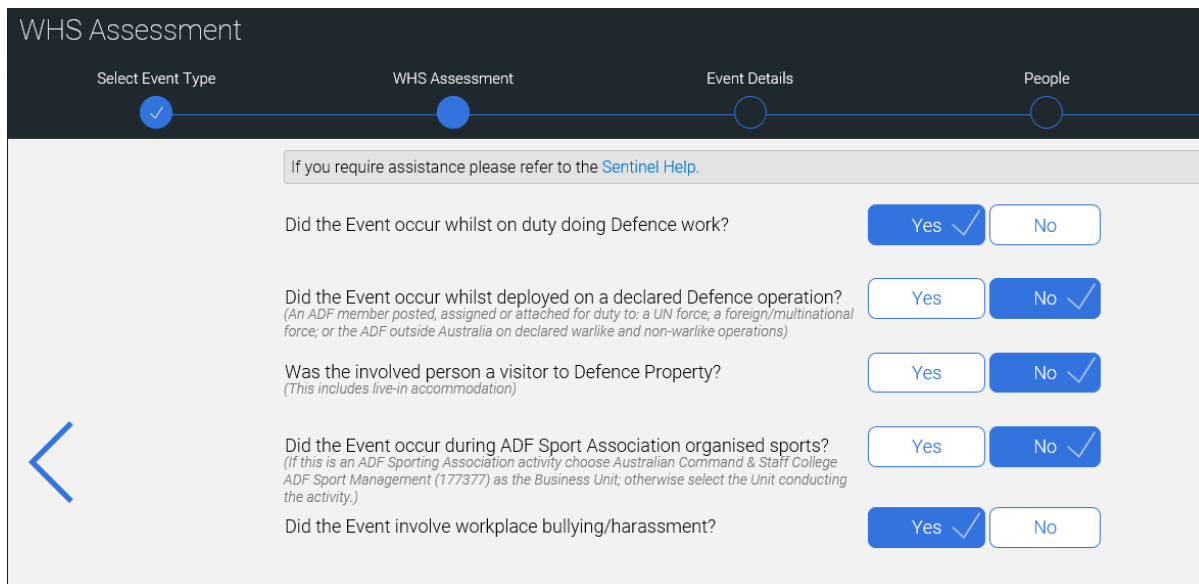

**Figure 2 – Select Event Type**

1.6 **Step 3 – Complete WHS Assessment.** The WHS assessment comprises five questions (Figure 3)

**Figure 3 – WHS Assessment**

- Answer the first, third and fourth question as applicable to the event/incident (refer [Reporting a WHS Event](#)).
- For events/incidents that **did not** occur in the Defence environment (workplace), select “Yes” to “Did the Event occur whilst deployed on a declared Defence Operation”.

- For **all** youth protection events/incidents, including a youth protection policy breach, select “Yes” to “Did the event involve workplace bullying/harassment?”
- Figure 4 shows a typical selection for a youth protection event/incident that occurred in the Defence environment, and Figure 5 shows a typical selection for a youth protection event/incident that didn’t occur in the Defence environment, but vary the responses as appropriate to the event/incident.
